## Comments/Abstract

[Responsible Wood (RW) has developed two Australian Standards® within the Australian Forest Certification Scheme which address wood production from sustainable forest management and the tracking of certified products in the wood and forest products supply chain by a chain of custody mechanism. These Australian Standards® were developed by and are maintained by RW Reference Bodies which comprise of representatives of nominating organisations/associations and individuals with a nominated Chair and secretariat support from RW.]

This Procedure provides guidance as to the composition and selection process for Standards Reference Committee representatives aligned with the requirements for balanced representation from the broadest possible spectrum of interests.

3.1	AS 4708 - Standards Reference Body for Sustainable Forest Management .....	4
3.2	AS 4707 - Standards Reference Body for Wood & wood Products Chain of Custody – .....	4
3	Reference Documents.....	5
	ANNEXURE 1 - COMPOSITION OF THE RW STANDARDS REFERENCE BODYS .....	6

## 1 Purpose

The Australian Standards within the Australian Forest Certification Scheme (AFCS) are developed and maintained/reviewed by Responsible Wood (RW) appointed Standards Reference Bodies (SRB).

SRBs will generally be composed of those nominated or endorsed by a National representative body or individuals that are interested in or affected by the subject matter of the relevant Standard.

This Procedure provides guidance as to the composition and selection process for Standards Reference Body representatives aligned with the requirements for balanced representation from the broadest possible spectrum of interests.

## 2 Scope

Composition of SRB must be in compliance with Standards Development and Accreditation Committee (SDAC) requirements for balanced interests relevant to the subject matter.

## 3 Representation Composition

RW will ensure that the Standards Reference Body is composed of representatives who cover scientific, environmental, social, economic and cultural aspects of sustainable forest management in Australia.

The interest categories shall as least include representatives from Producers, Users, and General Interest

Representation will be allocated to one of the stakeholder interest groups as identified for each of the AFCS Standards:

### 3.1 *AS 4708 - Standards Reference Body for Sustainable Forest Management*

#### **SRB-4708**

- A. FOREST OWNERS AND MANAGERS**
- B. FOREST-BASED INDUSTRY**
- C. ENVIRONMENT**
- D.COMMUNITY & SOCIAL**
- E.CONSUMER AND CUSTOMERS**

### 3.2 *AS 4707 - Standards Reference Body for Wood & wood Products Chain of Custody –*

#### **SRB-4707**

- A. FOREST-BASED INDUSTRY**
- B. COMMUNITY AND ENVIRONMENT**
- C. CONSUMERS AND CUSTOMERS**

Detailed composition of the RW Standards Reference Body is presented in Annexure 1 of this procedure.

The number of representatives for each main stakeholder group will be determined by RW to provide the required balance of skills and interests.

Category	Number of representatives
<b>SRB-4708</b> A. Forest owners and managers B. Forest-based industry C. Environment D. Community & social E. Consumer and customer	<i>Recommended guide to the number of representatives is: Up to 20 members with a balanced distribution through the categories.</i>
<b>SRB-4707</b> A. Forest-based industry B. Community & Environment C. Consumer & Customers	<i>Recommended guide to the number of representatives is: Up to 12 members with a balanced distribution through the categories</i>

RW may at any time review the composition and number of representatives of the Standard Reference Bodies.

Representation on Bodies will preferably be from those nominated or endorsed by a National representative body. Alternatively, representation may be drawn from State level organisations.

In the absence of relevant Organisational representation, individuals with an interest, knowledge and skill relevant to an interest category, may be invited to join the SRBs.
